CA No.1:10-cv-00453-RMC. " Court order demanding identity information
regarding your charter high-speed account".

Dear Sir or Madam

Please be advised that my wife and I strongly and formally oppose the release
of our information called for by the U.S. District Court for the District of
Columbia.

My wife and I are both 69 years of age and the only occupants of this
location. Charter personnel installed the high speed equipment for our
internet connection and we have made no modifications to it. If it had any
features that made it vulnerable to "hacking", we had no knowledge of that.
This technology is way above our abilities to deal with.

Respectfully

William J. Wright
